About me

Recent MERN stack graduate with a strong foundation in web development and a passion for creating efficient, user-friendly applications. Seeking a position as a Web Developer to apply my skills in HTML, CSS, JavaScript, React, Node.js, MongoDB, and Next.js, and contribute to a collaborative and innovative team.

Projects

1. Full-Stack Blog Application

Tech Stack: React, Node.js, Express, MongoDB, Tailwind CSS

- Developed a fully functional blog with user authentication, CRUD operations, and real-time updates.
- Integrated a responsive frontend with a dynamic backend, including REST API development.

2. E-Commerce Website

Tech Stack: Next.js, Node.js, MongoDB, Tailwind CSS

- Designed and implemented an e-commerce website with shopping cart functionality.
- used MongoDB for product and user management.

3. Institute Management System

Tech Stack: React, Node.js, Express, MongoDB, Tailwind CSS

- Built an institute management system for managing students, courses, and staff.
- Implemented role-based access control and dynamic dashboards for admin and users.

4. Portfolio Website

Tech Stack: HTML, CSS, JavaScript, React.js

- Built a personal portfolio to showcase my web development skills and projects.
- Deployed on Vercel and optimized for SEO and performance.

5. Food Recipe Website

Tech Stack: React.js, Node.js, APIs, Tailwind CSS

- Developed a food recipe website where users can search, their favorite recipes.
- Included user authentication and recipe categorization, with a responsive design.
